

EMBUILD MATERIALS is a building materials company that provides relevant and high quality products to customers. We work hard to develop and deliver the best solutions for Building material industry in general and Metal construction in particular. Promoted by the **Buhari Group (www.buhariholding.com)**, **co-promoters of ETA-ASCON Group, Dubai**. The company focuses on building materials and products, catering to various requirements for the construction and building Industry. Industry experience of our team coupled with resourceful management experience has enabled us to meet customer expectations and to provide comprehensive solutions across the construction industry.

We offer a wide variety of high quality building materials and construction supplies to satisfy the ever growing needs of the industry. Our experienced team is fully equipped and are experts in advising the customers on optimum utilization of products. We constantly strive to establish and maintain a mutually beneficial long term relationship with our customers.

PRODUCTS OFFERED

- Profile Sheets
- Insulated Sandwich Panels
- Z & C Purlins
- Decking Sheets
- PEB Accessories
- Fixing Accessories
- Insulation Materials
- Fencing Panels
- Metal Sheets, Expanded Metal Products
- Perforated Sheets
- Cold Rooms
- Cold room doors and accessories
- Clean Room construction material
- Coving and other Profiles

FIXING ACCESSORIES

Screws (Self Drilling and self Tapping)

For fixing of Single skin profile sheets and sandwich panels.

- Thread 2,54 - Pointed End.
Screw With Ø 19 mm washer these are for fixing on Wood Purlins and on less than 3mm thick Steel/ GIMF Purlins.
6,5 X 25 mm
6,5 X 75 mm
6,5 X 115 mm

- Thread 1,81 - Pointed End.
Screw with Ø 19 mm washer for fixing of Single skin profile sheets and sandwich panels.
6,3 X 25 mm
6,3 X 75 mm
6,3 X 115 mm

These are for fixing on more than 3mm thick Steel/ GIMF Purlins.

POP Blind Rivets

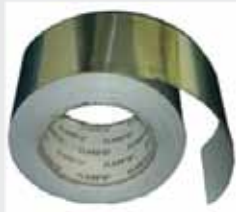

Sealed type
99.5% pure Aluminium
Material Composition to BS
1475 A 199.5
Mandrel: Aluminium (A)
PD 68A 48 X 11.4mm

Tensile 1060N
Strength (2401bf) 240(bf)

Shear 1060 N
Strength (2401bf) 240(bf)

BUTYL STRIP and PURLIN TAPE

BUTYL STRIP :

Applied at Gutter Joints, Side end laps. For joining Metal profile and Translucent sheets. To be applied by hand firmly to one joint surface, Backing paper to be removed, to press other surface firmly onto the face.

The strip is blend of cross-linked Butyl and insert fillers extruded into a strip or bead to form a roll which will have a paper backing also.

PURLIN TAPE :

Silver color Polyester/ Cotton cloth which is laminated to a Polyethylene backing with a high tack, natural rubber adhesive.

Color screw Caps

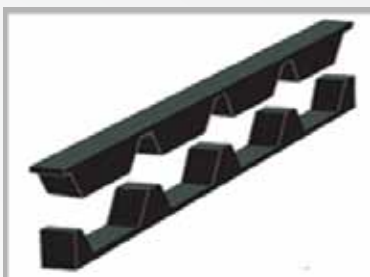

Shear Studs

1/4 x 4-1/4; 19x100LAW
3/4 x 5-3/16 (19x132LBW
=apprx. 19x125 length
after welding)

FILLER BLOCK / RUBBER FILLER

For sealing Roof profiles, Skylight (Translucent sheets), Eaves, Ridges to ensure that no ingress of water or water vapour.

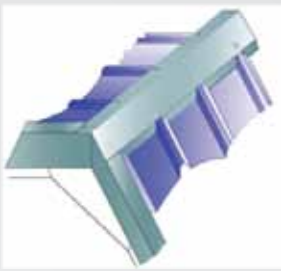

Threaded Bars
